SUMMARY

Full-Stack Web Developer with hands-on experience in React.js, Next.js, Redux Toolkit, TypeScript, Express.js, and MongoDB. Skilled in building responsive, and user-focused web applications. Passionate about creating scalable solutions, learning new technologies, and delivering high-quality software in fast-paced development environments

EXPERIENCE

MERN Stack Developer (Self-Learning & Personal Development)

2024 – Present

- Built and deployed full-stack web applications using React.js, Next.js, Express.js, and MongoDB.
- Developed RESTful APIs, authentication systems, and database-driven applications
- Integrate and build ai Assistant for website

LANGUAGES

Bengali — Native
English — Advanced

SKILLS

Frontend: HTML, CSS, React.js, Next Js, Tailwind CSS, Bootstrap, Shadcn, Redux

Backend: Node.js, Express.js, RESTful Apis, mongoose, Prisma, jwt

Database: MongoDB, PostgreSQL

Language: JavaScript, TypeScript

Tools: Git, GitHub, Postman, VS Code

Other: LangChain.js, AI Assistant Integration

Project

Inventory Management System with AI Assistant — MERN Stack

Technologies: React.js, Node.js, Express.js, MongoDB, Langchain, Gemini API, JWT

- Developed a full-stack inventory management system with CRUD operations for products, suppliers, and purchase records.
- Implemented secure JWT-based authentication and role-based access control.
- Integrated an AI assistant using Langchain and Gemini API to analyze inventory data and generate actionable insights.
- Built responsive and user-friendly dashboard interfaces for efficient inventory tracking.
- Designed and integrated RESTful APIs for seamless frontend-backend communication.
- Optimized application performance and ensured smooth end-to-end user workflows.
